# Neighborhood Pulse Application

Helping employees discover their community

**Capital**One

## Problem

Capital One employees want to better engage with banking customers BUT sometimes struggle to connect with their community.

## Solution

We created a web platform to discover local events and attractions, enabling a better understanding of communities

## Features

• Search events by date, keyword, genre, etc

• Create, share, and comment on events

• Discover community service opportunities, concerts, festivals, attractions, and more
